

ScanPro 2000

Easy to Use

The ScanPro® 2000 software is an intuitive Windows® computer application with familiar icons and text labels to further reduce the learning curve for occasional and first time users.

"The software looks and operates like cutting edge web environment programs. It has instant user appeal."

- Karen Oye, Case Western Reserve University.

Just CLICK the Film Selection Wizard to automatically set up your scanner. There is an on screen help menu at your fingertips that provides details on how to use any button control.

"Outstanding! Simple and easy to use ...you don't even have to tell people how to use them."

- Shay Foley
Vassar College

Performance

Small and compact, the ScanPro 2000 fits almost anywhere. One CLICK on-screen buttons complete look ups and research quickly and efficiently. The combination carriers for all film types are easy and fast to operate.

"Our patrons have taken to them readily... They are unequalled for ease of operation, versatility and image quality."

- Howard Bybee
Brigham Young University

Value

The ScanPro 2000 is built for durability in public use applications. The construction is heavy gauge steel throughout and all moving parts use steel bearings for long term reliability.

"Great design, well built, high quality, reliable product".

- Gerard Drinkard
Rutgers University

ScanPro 2000 Features and Specifications

Camera USB3: Optical resolution 6.6 megapixels
Maximum image size: 424 megapixels (image size is not optical resolution)
Customizable: tool tabs, button controls, tool tips, graphic film selection WIZARD
Film selection WIZARD: One click automatic set up of your scanner for any film application
On-screen magnifier (selectable zoom): to read small text and inspect fine details
FOCUS-Lock™ (patented): provides continual image focus (at all times, even during optical zoom)
Optical image rotation: Maximum resolution for both portrait and landscape images
PRECISION-Guide film rollers: Low inertia, easy-to-thread, ball bearing rollers provide precision control of film image position and movement
Fiche carrier (oversize), combination roll film carriers (16/35mm and M cartridge film)
Optical zoom magnification (no loss of resolution 7 to 54x or optional 7 to 105x)
Digital zoom magnification (loss of resolution using digital zoom) 7 to 810X
Scan size: Specify the printing size of the scan image (ScanPro exclusive)
Selectable auto-crop or persistent crop (efficiently capture images on fiche)
Digital image rotation: Rotates film image 90 degrees each click or flip the image horizontally
UBS1/USB2/ USB3: Convenient, integrated, front access port for portable flash drives
Soft bright, film-optimized lamps with lifetime warranty
Scan resolution (selectable): 150 to 1200 dpi.
Automatic film scanning (included): Automatic Scanning full roll (up to 10 images/minute) auto-crop/straighten partial/full roll
Automatic film scanning (optional): AUTO-Scan® Pro (up to 40 images/minute) auto-crop/straighten/brightness partial/full roll
MergeClips™: Combine, arrange, and size scans to a single page, plus annotation
SPOT- Edit™ (live editing provides speed and accuracy): Select any area (or multiple areas) then adjust brightness, contrast, redact or whiteout for any selection
Scan mode: Enhanced grayscale, grayscale, bi-tone (B&W) with or without PDF/L
Microforms (pos and neg): Film, fiche, ap cards, micro opaque & ultrafiche ¹ are optional
