

## New ScanPro 2000 Features Now Available V3.23

ScanPro 2000	Features and Benefits	Feature
	What's new in this software release:	New features have been added to your ScanPro 2000 software as we continue our commitment to make working with microfilm easy, efficient and fun!
	PowerScan Productivity Suite.	The PowerScan Productivity Suite is a significant software addition to the ScanPro 2000. There are four productivity tools in this software suite: WORD-Search, INFO-Link, Copy to clipboard, Searchable PDFs. The PowerScan Productivity Suite will change the way people work with microfilm. People seeing this software for the first time at the recent IFLA and ALA library shows had these comments, "unbelievable", "I have never seen anything like this for microfilm", "is this available now?" A demo version of this software is available on this download (requires a license key available, no charge, from your reseller).
	1. WORD-Search™	Find words within your microfilm image. Click the WORD-Search button and enter a word in the search box to highlight that word everywhere on the page
	2. INFO-Link™-	If you want more information on a word within your microfilm image, just click the INFO-Link button and then the word, term, location, etc to open a reference source like Wikipedia, a dictionary, or thesaurus to find additional information.
	3. Copy to clipboard	Highlight information on your microfilm image and copy it to the clipboard as text for pasting into any document like word, excel or power point.
	4. Word searchable PDFs (single and multi page)	With a single click you can convert any microfilm image to a word searchable PDF, single page or multiple page.
	Language selection	Administrative set up can add a language button to the toolbar that allows the patron or user to make a language selection choice. The language selection affects label text, roll over instructions and tab text.
	OCR language	The ScanPro user can use the Language button to select the OCR language.
	Film Wizard	Language control has been added to the Film Selection Wizard.
